Hi-Bird Group of Industries is known all over the world as a Quality Manufacturer established in 1994 and pioneered into fashion bicycles in the traditional Indian market offering more than 200 varied designs and models serving all age Groups and segments.

Today, we are humbled to be known as India's fastest growing bicycle brand and are proud of our sensational success across the globe. Our continuous dedication to quality, design, aesthetics, durability and customer responsiveness manifest themselves by way of International & National awards and recognitions like "International Europe Award for Quality, Paris (France)" and "Platinum Star Award for Quality from Geneva (Switzerland)". Company has been also awarded "National Award for Quality" by the Govt. of India.

The Group has a well-established sales network all over India having more than 5000 dealers and has presence in nearly 75 overseas markets covering six continents. The company has fully equipped in-house R & D facilities and State-of-The-Art manufacturing plants.

Hi-Bird has the tradition of developing Gen-next style statement bicycles and we are offering this product catalogue with highly attractive models with latest trends. "Every Hi-Bird Bicycle owner should feel that one is owning an innovative exclusive bike", this is our ultimate target. It will always remain our endeavour to provide the consumers world class products with latest technology and fashion at the most reasonable prices and we stand committed to cust
